

Subject Index

A Comparison of Simple Stretching Methods and Flexible Iris Retractors in Patient with Small Pupil and Cataract	291
Acanthamoeba Keratitis Related with Contact Lens Use	509
Arteriovenous Adventitial Sheatotomy for Macular Branch Retinal Vein Occlusion	516
Aspergillus Keratitis in a Diabetic Case	523
Central Serous Choriretinopathy After Intranasal Steroid Use	72
Change in Refraction by Artificial Tears	191
Characteristics and Long-term Fluctuation of Visual Fields in Stable Glaucoma Patients under Treatment	405
Choice of Frontalis Suspension Material: Ten-Years Experience	271
Clinical Features and Prognosis of Vogt-Koyanagi-Harada Disease	163
Clinical Features of the Optic Disc Melanocytoma and Optic Disc Melanoma	352
Color Doppler Imaging of Ophthalmic Artery Blood Flow Velocity in Pseudoexfoliation Syndrome and to Evaluate the Incidence of Transient Ischemic Attacks	118
Combined Phocoemulsification, Intraocular Lens Implantation and PPV for Eyes with Coexisting Cataract and Vitreoretinal Pathology	318
Comparison of Amniotic Membrane Grafts and Primary Closure for Primary Pterygium Excision	385
Comparison of Topical Latanoprost 0.005% and Brimonidine 0.2% Eye Drops in the Adjunctive Treatment of Patients with Primary Open Angle Glaucoma	412
Corneal Findings of Riley-Day Syndrome	75
Double Technic to Membrane Peeling	53
Early Period Results of Deep Sclerotomy and T-Flux Implantation in Cases of Open Angle Glaucoma	132
Effect of Diabetes on Surgically Induced Astigmatism in 4 mm Corneal Tunnel	23
Effects of Oral Acetazolamide and Intracameral Carbachol on Early Postoperative Intraocular Pressure After Phacoemulsification	35
Efficacy and Safety of Longterm Monotherapy of Timolol+Dorzolamide (Cosopt) in the Treatment of Glaucoma	401
Efficacy and Safety of Travaprost (%0.004 Travatan) Under Mono or Combination Regimes in the Treatment Glaucoma	484
Efficacy of Modified Grid Laser Photocoagulation for Diabetic Maculopathy After Phacoemulsification and Intraocular Lens Implantation	137
Elimination of Persistent Tear Film Precipitates Hindering Anterior Segment Visualisation during Phaco Surgery Using Artificial Tear Preparations	29
Endophthalmitis After Intravitreal Injection of Triamcinolone Acetonide	519
Evaluation a Case of Death After Strabismus Surgery in the Perspective of Medical Deontology and Medical Ethics	334
Evaluation of Corneal Haze and Other Complications Following Laser Subepithelial Keratomileusis (Lasek) in 292 Eyes	286
Evaluation of the Effects of Pterygium Surgery on Corneal Astigmatism and Topography	378
Evaluations of Central Corneal Thickness in Patients with Primary Open Angle Glaucoma, Normal Tension Glaucoma, Ocular Hypertension and in Normal Eyes	479
Exchancing Anterior Chamber Intraocular Lens with Transsclerally Fixated Intraocular Lens in Combination with Penetrating Keratoplasty	100
Glaucoma Induced Viscoelastics	126
Idiopathic Orbital Inflammatory Disease with Extraorbital Extensions	359
Increase in Central Corneal Thickness in Dry and Normal Eyes and Normal Eyes with Application of Artificial Tears: A New Diagnostic and Follow-Up Criterion for Dry Eye	370
Indirect Carotid Cavernous Fistula: A Case Report	437
Intravitreal Triamcinolone Injection in Diffuse Macular Edema Associated with Retinal Vascular Disorders	239
Isolated Ocular Traumas in Childhood	155
Limbus in Situ Carcinomas (Bowen's Disease) and their Managements	490
Measurement of Macular Blood Flow in Eyes with Primary Open Angle Glaucoma	11
Multilayer Amniotic Membrane Transplantation for Treatment of Corneal Ulceration	4

Ocular Findings in Patients with Multiple Sclerosis	460
Ophthalmology Education in Turkey; Yesterday-Today	368
Our Results of PPV in Patients with Complicated Retinal Detachment	504
Our Treatment Approach to Endophthalmitis Developing After Anterior Segment Surgery and Our Results	325
Pars Plana Vitrectomy and Intravitreal Phacoemulsification for Dislocated Crystalline Lens During Cataract Surgery	143
Penetrating Keratoplasty and Cataract Surgery; Refractive and Visual Outcomes of Triple Procedure versus Two-Stage Procedure	212
Phacoemulsification Cataract Extraction and Posterior Chamber Intraocular Lens Implantation in Patients with Uveitis	113
Possible Effects of The Extent of Exudative Retinal Detachment on the Regression of Posterior Uveal Melanoma Following Iodine-125 Plaque Brachytherapy	258
Pseudoexfoliation Syndrome in Senile Cataracts	104
Quality of the Life Instruments Used in Ophthalmology and the Turkish Translation of National Eye Institute Visual Functioning Questionnaire	453
Radial Optic Neurotomy in Non-Ischemic central Retinal Vein Occlusion	48
Reasons and Outcome of Incomplete Flap in LASIK: In view of a Case	443
Result of Strabismus Surgery with Anterior Ciliary Arteria Preservation	339
Results of Amnion Membrane Transplantation Procedure for the Treatment of Ocular Surface Pathology	391
Results of External Levator Aponeurosis Surgery in Blepharoptosis	265
Results of Porous Polyethylene Sphere as an Anophthalmic Orbital Implant	346
Retinitis Pigmentosa and Spontaneous Lens Resorption	41
Serum Levels of VEGF and in Patients with Diabetic Retinopathy	496
Serum Lipid Profile in Pseudoexfoliation Syndrome	17
Similarities in Clinical and Surgical Aspects of Preclinical Pseudoexfoliation and Cases with Pseudoexfoliative Syndrome	297
Small Pupil Phacoemulsification	177
Subscleral Sclerectomy in the Treatment of Serous Retinal detachment Due to Nanophthalmos	447
Surgical Treatment of Sino-Orbital Fistula	171
The Association Between Hypermetropia and Essential Hypertension	58
The Effect of Single Dose Intravitreal Triamcinolone Injection on Intraocular Pressures in Patients with Diabetic Macular Edema	426
The Effect of Corneal Incision Size on Surgically Induced Astigmatism in Phacoemulsification Surgery	110
The Effect of Dacryocystorhinostomy on Conjunctival Flora in Patients with Chronic Dacryocystitis	205
The Effect of Mitomycin-C on Trabeculectomy in Primary Glaucoma Cases	231
The Effect of Phaco Time on the Postoperative Corneal Thickness After Phacoemulsification	222
The Effect of Scleral Buckling on the Prognosis in Severe Closed-Globe Injury Involving the Posterior Segment which Underwent PPV	252
The Effect of Smoking on Visual Field and Ocular Blood Flow	473
The Effect of the Prophylactic Treatment on the Visual Field Analysis of the Migraine Patients	246
The Effectiveness of Chemical Denervation with Botulinum Toxin A in the Treatment of Blepharospasm and Hemifacial Spasm	84
The Effects of Artificial Tear Application on Contrast Sensitivity in Dry and Normal Eyes	468
The Effects of Olopatadine Hydrochloride Treatment to the Tear Levels of IL-4 and IL-5 in Seasonal Allergic Conjunctivitis	197
The Evaluation of the Results of Deep Sclerotomy+T-Flux Surgery	227
The Outcome of Screening for Retinopathy of Prematurity in Premature Infants	150
Therapeutic Approach in Patient with Chronic Progressive External Ophthalmoplegia	93
Timolol 0.5% Solution Versus Timolol 0.1% Gel: A Comparison of Efficacy in the Glaucomatous Cases	420
To Report two Patients with Orbital Tuberculosis	527
Topical Anesthesia Using Lidocaine and Bupivacaine Combination for Phacoemulsification	314
Total PPV with High Speed Vitrector for Postoperative Endophthalmitis	330
Tranconjunctival Sutureless PPV	431
Tyran Blue in Phacoemulsification Surgery	307
Vogt-Koyanagi-Harada Syndrome Pulsed Corticosteroid Therapy	65
