

## Subject Index

---

A single design multipurpose intraocular lens: Iris claw intraocular lens	50
Aberration of third nerve	352
Ablatio falciformis Retinae congenita	285
Amniotic membrane transplantation in nontraumatic corneal perforations	92
Bicanalicular nasolacrimal entubation in canalicular lacerations	373
Botulinum toxin chemodenervation combined with tranposition surgery for chronic sixth nerve palsy : a presentation of three cases	321
Botulinum toxin in acute sixth nerve palsy	276
Capsulorhexis in white cataracts using green-light endoillumination probe	9
Central corneal thickness,NFA GDx and TopSS parameters in ocular hypertensive patients	212
Clinic in pseudocataract	229
Clinical applications of capsular tension rings	344
Clinical characteristics and cornea endothelium density in traumatic hyphema	457
Clinical outcome of single-piece hydrophilic methyl methacrylate copolymer intraocular lens	234
Combined central retinal artery and vein occlusion	281
Combined phacoemulsification and silicone oil drainage in vitrectomized eyes	166
Comparison of efficiency of single dose intravitreal triamcinolone for various ocular disease causing macular edema	422
Comparison of IOP changes after phacoemulsification in eyes with and without pseudoexfoliation	389
Comparison of phacoemulsification results of mature and nucleocortical cataracts	219
Comparison of two different methods in central cornea thickness measurement	306
Congenital retinal septum	285
Discoid Lupus Erythematosus of eyelid	512
Effect of age on the retinal nerve fiber layer thickness and standard parameters of GDx	160
Effect of latanoprost on cystoid macular oedema in aphakic or pseudophakic eyes in long term use	64
Effects of topical or oral nonsteroid anti-inflammatory drugs on intraocular pressure reducing efficacy of latanoprost	264
Effects of two concentration of Na-hyaluronate on postoperative pressure	59
Effects of vitreous loss during cataract surgery on postoperative findings	32
Epidemiologic characteristics of donor and corneal tissues	203
Evaluation of distance visual acuity an logMAR system	180
Evaluation of etiology and management of orbital infections	332
Eye-lid involvement in Urbach-Wiethe disease	364
Eyelid posterior lamellar reconstruction	138
Foldable intraocular lens implantation in children with congenital cataract	223
Fundus fluorescein angiographic findings in patients with Behçet's disease with no ocular involvement	156
Hallervorden-Spatz Sendromu	356
Humour flowed down into the eye in "Cerrahiyet-ül Haniyye" and brief viewing the history of the cataract surgery	82
Idiopathic intracranial hypertension and facial paralysis	177
Inter-session reproductibility and inter-subject variability of pattern visually evoked potentials	399
Intraocular lens opasification and/or pseudocataract	75
Intraocular lens power calculation after refractive surgery and technologic improvements	384
Intraocularless implantation with the unfold lens injection system	4
Intraoperative floppy iris syndrome in cataract patients on tamsulosin	485
Intravitreal triamsinolone acetamide usage in ophthalmology	493
IOL Master use for calculating IOL power	490
Late distal membraneous occlusion after Ahmed glaucoma valve implantation	508
Long term course of silicone ekspander for Brown's syndrome	269
Longitudinal changes in cornea topography after penetrating keratoplasty	98

Myopia and ciliochoroidal effusion after a minor blunt trauma in juvenile glaucoma	316
Ocular manifestations in Acne Rosacea patients	104
Ocular signs in chronic renal failure	150
Optical coherence tomography findings in a patient with benign concentric annular macular dystrophy	395
Orbscan pachymetric evaluation of the central corneal thickness after hyperopic and compound hyperopic astigmatic LASIK surgery	292
Our outcomes of refractive intraocular lens surgery in high myopic eyes	39
Our results of lens extraction in highly myopic patient	239
Pediatric cataracts : our surgical approach	118
Pediatric rosacea :a case with unilateral ocular involvement and suggesting early rhinophymatous properties	435
Penetrating keratoplasty in children	197
Phakic iris claw intraocular lens implantation	44
Preventing effect of alfa-tocopheril acetate on retinal blood flow disturbances due to glaucoma	257
Refractive Lens Exchange for the correction of high myopia	470
Refractive surgery survey (Turkish 2004)	245
Reproducibility of automatic endothelial cell analysis performed with non-contact specular microscopy	300
Retinopathy of prematurity in babies with a birth weight of 1000 gr or less	406
Scatrical ectropion and canalicular stenosis associated with the use of systemic 5-fluorouracil	360
Simultaneous correction of blepharoptosis after strabismus surgery	352
SRK II formulation in intraocular lens power calculation	481
Subhyaloid Hemorrhage: treatment and prognosis	430
Surgical treatment results in unilateral sixth nerve palsies	503
Tear film function and lipid and lipid composition of Meibomian glands	450
The change in astigmatism following pterygium surgery: A comparison of autograft and flap techniques	190
The comparison of our LASIK and LASEK results in low myopia	463
The effect of clinical parameters on the visual acuity levels in patients with unilateral congenital ptosis	145
The effect of IOL location to the visual improvement and complications in secondary IOL implantation	130
The effect of intravitreal injection of triamcinolone acetonide on intraocular pressure	411
The effect of phacoemulsification and intraocular lens implantation surgery on anterior chamber angle width depth and intraocular pressure	311
The effect of temporal cornea phacoemulsification on intraocular pressure and visual acuity in eyes with previous trabeculectomy	112
The efficacy of contrast sensitivity testing for detecting early visual dysfunction in patients with pituitary adenoma	326
The knowledge about the muscles and eye movements at the end of medieval time in Anatolia	440
The outcome of phacoemulsification in mature cataracts	477
The results of our posterior capsulorhexis	125
The results of primary posterior capsulorhexis and anterior vitrectomy combined with posterior optic capture on visual axis opacification in pediatric patients with cataract	22
The serologic screening of blood samples of donors of the Ministry of Health Haseki Education and Research Hospital Eye Bank	208
The side effects of intravitreal triamcinolone acetonide injection in short and long-term period	416
The surgical management and prognostic factors of traumatic cataracts	13
The use of topical Aproclonidin in prevention of subconjunctival hemorrhage in LASIK patients	377
Topical anesthesia in phacoemulsification and intraocular lens implantation	28
Transpupillary thermotherapy in the management of intraocular tumors	171
Treatment in allergic conjunctivitis	337
Ultrasonic power delivery modalities during phacoemulsification surgery	68
Use of casular tension ring in cataract cases with pseudoexfoliation syndrome	17
Where we are?	448
